CLASSIC KITCHEN

The traditional style offers a combination of comfortable furniture, classic designs and casual décor. It is a term that includes several design elements, including warm colors and symmetrical lines and. The traditional style is one of the most popular styles used to decorate homes.

It incorporates design elements from a variety of centuries, which allows homeowners to feel

comfortable and elegant at the same time. The traditional style features warm, rich colors that are very inviting.

The traditional style may have curves and designs, but it is not extremely ornate or ostentatious. Glazed doors or stained glass add character to the room, and wood floor or checkered tiles can make the space even more personal.

CONTEMPORARY KITCHEN

Contemporary kitchens are one of the most popular styles of kitchen and for good reason. They're clean, stylish and uncluttered – whilst still remaining livable. With the space-saving innovations of the contemporary kitchen – they can fit into almost any sized kitchen area. The essence of contemporary kitchen design is clean, minimalistic spacious and light.

But above all else a contemporary kitchen is attractive and something you want to show off to your friends and family. Because such an emphasis is put on minimalism and simplicity, contemporary kitchens are free from all unnecessary objects meaning there will likely be no ornaments present.

One of the great things about contemporary kitchens is they make good use of the space available. And with clever use of horizontal lines, the kitchens look much larger than they actually are. Contemporary kitchens are well renowned for consistently looking clean and tidy – all year round.

WARDROBES

We are dealing with Italian wardrobes, vanity & walk-in closets. A wardrobe is a standing closet used for storing clothes.
